A WISCONSIN CORPORATION

WHOLESALE GROWERS SPECIALIZING IN YELLOWS RESISTANT STRAINS

LANSING, ILLINOIS

CABBAGE SEED VARIETIES

Yellows Resistant

THE WISCONSIN CABBAGE SEED COMPANY GIVES NO WARRANTY, EXPRESS OR IMPLIED, AS TO DESCRIPTION, QUALITY, PRODUCTIVENESS OR ANY OTHER MATTER OF ANY SEEDS IT SELLS AND WILL NOT BE RESPONSIBLE FOR THE CROP.

Jersey Queen: 55 days. Selected from Jersey Wakefield. Heads pointed. Yellows Resistant.

Racine Market: 60 days. Our latest introduction. Selected from Early Copenhagen Market. Color more blue-green than the original Yellow-green of the Early Copenhagen. Matures few days later than Golden Acre, but under favorable growing conditions produces a larger head. Yellows Resistant.

Allhead Select: 65 days. A flat or semi-round head, selected from Allhead Early. Mid-season type. For early shipping and for early sauerkraut. This strain has been improved remarkably through our selections in Yellows sick soil the past few years. Yellows Resistant.

Marion Market: 70 days. Selected from Copenhagen Market, but distinct from that variety in its later maturity, greater size of plant and head, bluer cast of foliage. Round head, very sturdy, excellent producer. Now the most popular of Yellows Resistant strains. It is widely used as a mid-season cabbage for shipping and sauerkraut. Yellows Resistant.

Globe: 75 days. Selected from Glory of Enkhuizen. Mid-season roundhead type, maturing few days later than Marion Market, but suited to the same market requirements. Very uniform. It has relatively shorter core than other roundhead varieties. Yellows Resistant.

Wisconsin Ballhead: 85 days. Selected from Danish Ballhead. Roundhead; short stem; blue foliage. Matures about two weeks earlier and is more uniform with higher resistance to the Yellows than Wisconsin Hollander #8. Suitable for storage when planted so as to mature late. Yellows Resistant.

THE WISCONSIN CABBAGE SEED COMPANY GIVES NO WARRANTY, EXPRESS OR IMPLIED, AS TO DESCRIPTION, QUALITY, PRODUCTIVENESS OR ANY OTHER MATTER OF ANY SEEDS IT SELLS AND WILL NOT BE RESPONSIBLE FOR THE CROP.

Wisconsin All Seasons: 90 days. Late maturing; Drum-head type. Flat Head. Suitable for late fall market; excellent for kraut; heavy producer. Yellows Resistant.

Wisconsin Hollander #8: 100 days. Selected from Danish Ballhead. Is 10 to 14 days longer in season than the ordinary Danish Ballhead, and produces a larger, flatter head. Excellent for storage, Yellows Resistant.

Red Hollander: 100 days. A round-head, late red sort. Good producer. Suitable for winter storage. Yellows Resistant.

Bugner: 110 days. A Ballhead or Hollander type somewhat longer in season than Wisconsin Hollander #8. Produces very large, slightly flattened heads which have excellent keeping quality. Yellows Resistant. By constant breeding and selections each year in sick soil, we have made considerable improvement with our strain of Bugner in the last few years.
